Series Editors' introduction / ix

Introduction / xi

Acknowledgements / xv

Part 1 Strategic decision making / 1

1 **Why digitize? The costs and benefits of digitization** / 3
Introduction / 3
The potential of digitization / 3
Digitization in libraries, archives and museums / 5
Advantages of digitization / 8
Integration of technology: a case study of an incremental approach / 17
The impact of digital collections on institutions / 19
New economic models / 23
Conclusion / 29

2 **Selecting materials for digitization** / 31
Introduction / 31
Developing institutional policies on selection for digitization / 34
Assessing collections / 39
Existing projects / 48

9 Digitization of audio and moving image collections / 235
Introduction / 235
The value of audiovisual collections to scholarship / 236
Audiovisual formats / 237
Advantages of digitization / 239
Challenges / 240
Sources of expertise / 242
Digitizing audio and video / 243
Post-capture processing / 244
Setting up a digitization centre / 246
Audio: a preservation concern / 248
Metadata / 248
Case studies / 249
3-D objects and artefacts / 251
Conclusion / 253

10 Digitization of text and images / 255
Introduction / 255
Managing the digitization of text / 257
Handling / 257
Technical issues in text digitization / 258
Mark-up and metadata /262
Digitization of image collections / 263
Usage of image archives / 265
Technical issues in image digitization / 270
Where to set up the imaging project? /270
Case studies / 272
Conclusion / 281

Conclusion / 283

Bibliography / 290

Index / 315
